STRATEGIC FOUNDATION

VALUED BEHAVIORS

**BE AN
AUTONOMOUS
OWNER**

**LEARN & GROW
ALL THE TIME**

**STAY
ORGANIZED &
COMMITTED**

**FEEL WELL
WITH PURPOSE**

STRATEGIC FOUNDATION

VALUED BEHAVIORS

BE AN AUTONOMOUS OWNER

Take full responsibility for outcomes, be proactive, self-driven, and drive progress without reminders

1. Stay on top of your scope, deliverables, and milestones
2. Share proactive status updates—don't wait to be asked
3. Surface risks early with options and a recommendation
4. Ask for support promptly and specifically
5. Raise flags early if you're stuck or overloaded—renegotiate early if needed

LEARN & GROW ALL THE TIME

Continuously improve by seeking development, insights, experimenting, and sharing what you learn.

1. Invest in learning across technical, consulting, and personal skills
2. Listen deeply; ask why, why not, how & tell me more to understand and improve.
3. Dedicate time weekly to reading, listening, or exploring something new
4. After each task or project, reflect: "What could I improve next time?"
5. Run small experiments to enhance tools, processes, and client value.

STRATEGIC FOUNDATION

VALUED BEHAVIORS

STAY ORGANIZED & COMMITTED

Plan carefully, follow the systems, and deliver high-quality work on time with clear communication.

1. Start every week with a clear plan, todo lists and check-ins with relevant stakeholders
2. Follow agreed methods, tools & templates and propose improvements before deviating
3. Deliver on time through well managed reminders for key milestones and deadlines
4. Show up prepared—review docs or data the day before meetings
5. Triple-check your deliverables before submission—for both content and formatting
6. Communicate promptly and professionally —within 24 hours unless otherwise agreed

FEEL WELL WITH PURPOSE

Care for people and yourself, speak honestly, protect your energy and align your work to a meaningful “why.”

1. Treat clients, partners, and teammates with respect; be genuinely & proactively helpful
2. Speak openly and constructively with evidence and care.
3. Maintain a safe space at all times—invite voices, reflections & challenging ideas
4. Share concerns early in a solution-first way; avoid unproductive complaining.
5. Set and hold healthy boundaries—even with clients.
6. Protect your well-being: rest, take time off, and ask for help
7. Know your “why” and keep reconnecting with the bigger picture

2.

STRUCTURE & ROLES

ORGANIZATION STRUCTURE

HIGH LEVEL ROLES

CONSULTING TEAM

ROLE	JOB PURPOSE	TOP RESPONSIBILITIES
Consultant	Execute consulting work, client interviews, workshops, deliverables, and follow-ups.	Interviews & discovery; analysis & storyline; report/slides drafting; session prep/facilitation support; stakeholder follow-ups; action tracker upkeep.
Senior Consultant	Provide advanced strategic thinking, oversee projects, and mentor consultants.	Oversight on complex workstreams; interview planning & synthesis; workshop design/facilitation; quality review of reports; coach consultants; support execution follow-ups and steering.
Lead Consultant*	Assignment owner and single point of contact for scope, cadence, and outcomes.	Own scope & plan; weekly cadence; stakeholder alignment; change control & SOW hygiene; final QA; light account management for the assignment.
Business Development	Grow pipeline via referrals, partnerships, and outreach.	Qualify leads; CRM/funnel hygiene; proposal coordination; partner activation; event/network orchestration; weekly BD report.

DATA TEAM

ROLE	JOB PURPOSE	TOP RESPONSIBILITIES
Data Head	Lead data practice; translate business questions into robust analytics.	Scope data work; define metrics/governance; choose tools/standards; architect dashboards; review/QA outputs; mentor analysts; support proposals.
Data Analyst	Turn data into clear insights, dashboards, and market maps.	Data collection/cleaning; dashboards & visuals; documentation; refresh & monitoring; market mapping and desk research.

HIGH LEVEL ROLES

MARKETING TEAM

ROLE	JOB PURPOSE	TOP RESPONSIBILITIES
Marketing Manager	Drive content strategy, personal branding, and performance across channels.	Annual/quarterly content strategy; personal brand plans for leadership; editorial calendar; channel ops & basic performance tracking; campaign retros; coordinate with creators.
Social Media Specialist	Publish content, manage community, and keep the calendar on track.	Schedule & post; community management (comments/DMs); coordinate approvals; chase inputs from teams; maintain content calendar & logs; basic analytics reports.
Brand Manager	Own positioning, voice, and visual identity; act as the quality gate.	Brand guidelines & asset library; messaging architecture; narrative for campaigns; review/approve public content; coach teams on brand use.
Graphic Designer	Produce on-brand visuals and templates for consulting and marketing.	Slides/reports; social/web creatives; infographics; template system; file hygiene & versioning.
Photographer	Capture and edit photo/video assets; manage media library.	Shot planning; on-site shoots; editing/grading; media library management; rights/releases.

SUPPORTING FUNCTIONS

ROLE	JOB PURPOSE	TOP RESPONSIBILITIES
Chief Accountant	Ensure accurate books, compliance, and cash-flow visibility.	Bookkeeping/reconciliations; invoicing & collections; AP/AR; payroll; taxes & filings; monthly closes; budget vs. actuals.
HR Partner	Hire, onboard, and sustain culture and compliance (no performance cycles/HRIS).	Workforce planning; recruitment & offers; onboarding journeys; Benefits Management; policies & compliance; learning coordination; engagement pulse & simple dashboards; employee relations.

3.

BASSEM MEGAHERD

High Level Executive, C-Level, +500
Employee

How FFNT Can Help

Collaboratively with the company team developing strategies for sustainable and structured growth.

Demographics

Age 35-60 years old

Gender Male

Education MBA or equivalent,
often from top-tier
business schools

Occupation C-level executives (e.g.,
CEOs, COOs, CFOs),
Senior VPs, or
Directors

**Company
Size*** Large enterprises with
500+ employees

*What matter here not the size of the company
but its maturity and process complex.

Personality

Confident, results-oriented,
values efficiency, and
expects top-notch service.
They're driven by success
and impact, with a strong
focus on measurable
outcomes.

Values

**Integrity, Quality and,
precision,** and strategic
thinking.

They appreciate strategic
approaches backed by **solid
data** and **experience**.

Goals

Primary Goals:

- Developing the team
strategic mindset, and get
them **involved** in building
the company strategy.
- Achieve **Team alignment** for
success.
- Optimize **organizational
performance** and **efficiency**.

Secondary Goals:

- Ensure Structure and
sustainable business growth
or achieve turnaround
- Gain competitive advantages
through advanced strategic
insights

Challenges/ Pain Points

- Internal organizational
inefficiencies hindering
success.
- Lack of clear strategies
and structured growth
- Difficulty in making
informed decisions due
to overwhelming
amounts of data or
conflicting advice
- Teams alignment and
harmony.

4.

INTERNAL MEETINGS

Meetings & Gatherings

Meetings & Gatherings

- 1.** Team weekly standup
- 2.** Learning Circle
- 3.** Consultants Squad
- 4.** Strategy Reviews (Q1, H1, Q3 and Annual)

Team Standup

Frequency	Weekly
Type	online
Duration	45-60 minutes
Content	Team members taking turns to communicate: ● Progress (highlights of last week activities) ● Plan (New Week Planned Actions) ● Problem (support and needs from the team)

Learning Circle

Frequency	Weekly
Type	online
Duration	45-60 minutes
Content	One of the team members share a learning with the rest of the team

Consultants Squad

Frequency	Every 2 Months
Type	offline
Duration	3 Hours
Content	Sharing Learning from assignments and updated frameworks and tools

Strategy Reviews

Frequency	Quarterly
Type	offline
Duration	6 Hours
Content	Presenting and reviewing the progress of the last quarter and plans for the next one

5.

MANAGEMENT TOOLS

G-Suite (Collaboration Ecosystem)

Why?: Secure email, document creation, storage, collaboration and sharing.

Key Features:

- Gmail: email access on all devices
- Drive: Client folders (/Clients Data Hub/Files)
- Docs/Slides: Live co-editing (Comments/ @mentions)
- Sheets: Working Documents, Data visualizations
- Privacy: Restricted Access and sharing rules
- Google Meet: for online meetings and video calls

Telegram (Communication Hub)

Why?: Real-time coordination for urgent updates and team syncs.

Key Features:

- Groups (FOREFRONT People, Learning Circle, Memes HUB, Clients and Projects)
- Saved media & history
- On mobile phones and laptops

Note: Remember to close the notifications

ClickUp (Project Command Center)

Why?: Single source of truth for tasks, timelines, and deliverables.

Key Features:

- Spaces: Client Assignments, Internal Initiatives and action plans
- List: Projects
- Views: List (tasks), Board (workflow), Gantt (timelines)
- Assign owners, set deadlines, and priorities

7.

PEOPLE GOVERNANCE

ENGAGE consulting are acting as our HR function

HR Policies & Procedures Overview

- Flexible working hours or arrangements, remote/hybrid work rules
- Leave policies (annual, sick, emergency)
- Payroll process and schedule
- Overview of benefits (benefit scheme policy & the benefit basket)

Benefit Scheme Policy

Objective

Forefront Employee Benefit Scheme aims to support employee wellbeing, motivation, and retention through a structured and flexible benefits offering. The scheme provides a combination of **Fixed Benefits** and a **Benefits Basket**, designed to meet diverse employee needs while ensuring fairness.

Scope

This policy applies to:

- All **full-time employees** of Forefront.
- All **part-time employees** of Forefront (with specific eligibility conditions).

Fixed Benefits (Full-Time Employees)

1. **Marriage Allowance** – One-time gift upon marriage.
2. **Loans** – Available after one year of service, equivalent to one-month salary (repaid over a year, subject to cash availability).
3. **Summer Allowance** – Seasonal payout between July and September.
4. **Professional Development** – Annual support for job-related training and education.
5. **Special Events Support** – Assistance for maternity, newborns, or compassionate events.

Benefits Basket (Full-Time Employees)

Full-time employees receive a yearly **Benefits Basket value**, which increases with tenure. Employees can allocate their basket budget across available benefit categories as per their personal needs.

Benefits Basket Categories:

1. Gym Membership
2. Mobile Device Support
3. Personal Medical Insurance
4. Schooling Support

Each benefit has specific eligibility criteria and monetary limits.

Full-Time Employees – Basket Flexibility

Flexibility Policy:

- Full-time employees may allocate up to **50% of their Benefits Basket budget to a single benefit**, irrespective of usual category limits.
- This is designed for employees who find one benefit (e.g., schooling) significantly more valuable.
- The remaining **50% of the basket budget** can be used as per the standard scheme rules across other benefits.

This flexibility allows employees to maximize the value of their benefits based on individual preferences while maintaining overall budget discipline.

Part-Time Employees Benefit Scheme

Part-time employees are entitled to a proportional benefits package to ensure fairness while considering their working arrangement.

Eligibility Conditions:

- Part-time employees are eligible for a **benefit package equivalent to 50% of the budget allocated to full-time employees.**

Benefits Basket:

- Part-time employees may select up to **two (2) benefits** from the Benefits Basket.
- The selection must be within the **allocated basket budget.**

General Notes

- All benefits are subject to availability and Forefront's financial capacity.
- Eligibility criteria and monetary limits are outlined in detailed benefit descriptions.
- The company reserves the right to modify or discontinue certain benefits with prior notice.

POLICIES AND PROCESSES

Processes

Support Contacts

Key Contacts for Inquiries

1. HR Letters & Salary Requests

→ **Mohamed Seliem** (Finance Manager)

mohamed.selim@forefront.consulting

Includes: Pay slips, employment verification, bonus queries

2. Social Insurance & Benefits

→ **Randa Kasem** (HR Specialist)

randa@engageconsultings.com

Includes: Health insurance, Social Insurance, Benefits

3. Office Meetings & Logistics:

→ **Raneem** (Marketing Manager)

raneem.sarhaan@forefront.consulting

Meeting & Office Space Policy

External Space Rental Process

1. Budget Approval Required

- Submit request to the Managing Director (Islam) via Telegram/Email
- Include: Purpose, # attendees, date, duration, cost estimate
- **No bookings without pre-approval**
- Preferred vendors: mqr and co55

Office Usage Guidelines

General Access

- Open for all employees during business hours (8 AM-6 PM)
- No reservation needed for individual work (still it is recommended to notify the team in the “FOREFRONT People” telegram group)
- Clean space after use

Mandatory Coordination

- **ALWAYS notify Raneem (Marketing Manager)** when:
 - Hosting any meeting (internal/external)
- Contact: raneem.sarhaan@forefront.consulting with the following details:
 - Date/time, meeting purpose
 - Attendee list (highlight externals)

Inviting Guests to the Strategy Community

If you want to refer someone to our community. Just fill the form below with their details, and the community team will consider them for future meetups based on availability and how relevant they are to the topic.

<https://forms.gle/FVmMJPgMH7WDdj5K8>

A couple of quick notes:

- For your referral to be invited, you'll need to be attending the meetup yourself
- Submitting a name doesn't guarantee an invite, we'll check in with you before confirming anything

Conflict Management

- **Talk first, escalate second** – 80 % of frictions vanish after a direct, respectful chat.
 - **Be honest & open:** state views plainly.
 - **Be good to others:** listen first, assume positive intent.
 - **Share frustrations openly:** but stick to specifics (no whining).
- **Mediation** - If stuck, request a neutral teammate or the line manager to facilitate a 30-min session.
 - **No surprises:** the person you're escalating about should hear it from *you* first.
 - **Use facts + feelings:** describe impact, not intentions.
 - **Share, don't shame:** collective improvement.
- **24-Hour cooling option** – anyone may request a short pause or vacation day if emotions run hot; well-being beats “winning.”
- **Zero tolerance for disrespect** – insults or bullying should be escalated directly to leadership (Managing director).

Policies

Data Privacy Principles

1. Universal Protection

- Treat **all client information as Confidential** unless explicitly marked "Public" by the client.

2. Access = Need-to-Know

- Share client files **only with project-team members** (on telegram or Google Drive)
- Never grant clients access to *other clients'* folders.

3. No External Repurposing

- Never reuse client-specific data/analysis for other clients without **written consent**.

4. AI Tools Restriction

- **Never input, upload, or share confidential/sensitive data** (e.g., client info, financials, strategy) **with external AI tools** (e.g., ChatGPT, Copilot, Gemini).

Document Sharing Principles

1. Access Control:

- Grant access **only to authorized individuals**.
- Use "Specific People" (not "Anyone with the link") for confidential files.
- Grant only the minimum role required — Owner, Editor, Commenter, Viewer. Default to Viewer for observers and Editor only for active contributors.

2. Data Classification:

- Label documents: **Public** (non-sensitive), **Internal** (company-only), **Confidential** (e.g., HR, financial, client data).
- Never store **Highly Sensitive Data** (e.g., passwords, IDs) in Drive.

3. Sharing Permissions:

- Avoid "Public" sharing. Use "Restricted" mode by default.
- Revoke access when collaborators leave a project.

1

Market & Industry Intelligence

1. Market & Industry Intelligence

Deriving general insights for a market or an industry, providing the consultant with initial understanding and overview on the relevant dynamics in the assignment.

CASE:

Getting into a medical sector meeting and we need to get a quick overview of the market & industry dynamics in preparation for the client meeting.

Prompt:

We have a client in the medical sector in Egypt, and they are specialized in the general hospitals sector with various medical specialties. Act as a market & industry expert and provide me with at least 1500 words of organized & categorized information in addition to top terminologies and abbreviations I need to have knowledge about before the meeting to show that I have solid knowledge of the industry, the market & the internal operations and any other important elements from your perspective.

1. Market & Industry Intelligence

Deriving general insights for a market or an industry, providing the consultant with initial understanding and overview on the relevant dynamics within the assignment

Prompt Outcomes:

Macro Dynamics:

- **Population Growth:** Egypt boasts a burgeoning population exceeding 104 million, creating a high and growing demand for healthcare services.
- **Government Initiatives:** The Egyptian government prioritizes healthcare, implementing the Universal Health Insurance (UHI) plan to expand coverage. This boosts demand while introducing price regulations.
- **Economic Fluctuations:** Economic challenges can impact healthcare spending, potentially affecting service access for some citizens.
- **Technological Advancements:** Adoption of telemedicine, electronic health records, and AI in healthcare improves efficiency and expands reach, but requires infrastructure investment.

Resources:

- **Ministry of Health and Population, Egypt:** <https://www.mohp.gov.eg/>
- **The Egyptian Healthcare Journal:** <https://www.ejhc.journals.ekb.eg/>
- **Insights10 Egypt Connected Healthcare Market Report:** <https://www.insights10.com/report/egypt-connected-healthcare-market-analysis/>

1. Market & Industry Intelligence

Deriving general insights for a market or an industry, providing the consultant with initial understanding and overview on the relevant dynamics within the assignment

Prompt Outcomes:

Micro Dynamics:

1. **Specialization:** General hospitals in Egypt often offer a wide range of medical specialties, including surgery, cardiology, orthopedics, and more.
2. **Quality of Care:** Competition among hospitals is driving a focus on improving the quality of medical services, patient experience, and outcomes.
3. **Technology Adoption:** Hospitals are increasingly adopting advanced medical technologies and digital health solutions for diagnostics and treatment.
4. **Regulations:** Hospitals must adhere to regulations set by the Egyptian Ministry of Health and other relevant authorities, impacting their operations and quality of care.
5. **Patient Preferences:** Patients in Egypt have become more discerning, seeking hospitals that offer high-quality care and a good patient experience.

Medical Specialties:

General hospitals in Egypt offer a wide range of medical specialties to address various health concerns. Some of the key medical specialties commonly found in these hospitals include:

- **Cardiology:** Specializing in heart-related conditions and treatments.
- **Orthopedics:** Focused on musculoskeletal health, including bone and joint disorders.
- **Surgery:** Covering various surgical procedures, from general surgeries to specialized interventions.
- **Gynecology and Obstetrics:** Providing healthcare services for women, including maternity care.
- **Pediatrics:** Addressing the healthcare needs of infants, children, and adolescents.
- **Radiology and Imaging:** Offering advanced diagnostic imaging services.
- **Internal Medicine:** Dealing with the diagnosis and treatment of internal health issues.

2

Data Organization and Compilation

2. Data Organization and Compilation

Structuring and consolidating data for comprehensive and relevant outcomes

CASE:

Compiling & consolidating and articulation of people values within the organization based on a brainstorming done by the top management

Prompt:

We are a hospitality company that provides branded residence experience to guests, we are in the process of creating our valued behaviors inside the organization, we had a brainstorming session that generated a lot of words and phrases that the team value in their day to day work. I need you to cluster & group the words and phrases under relevant titles.

Respect minds, roles of others
Stay humble as you grow
Respect what you see and hear and who you work with
Never make someone feel less/lower than you
Listen and respect
Be fair
be dependable
Stay calm in stressful situations
Focus on the guest and all else will follow
We are customer obsessed
Be hospitable
be professional in what you do
learn by doing
be able to adapt and work with anyone
Listen to experts
Learn something and be curious
Don't be afraid make mistakes and learn from them
never stop developing yourself

**+70
inputs**

2. Data Organization and Compilation

Structuring and consolidating data for comprehensive and relevant outcomes

Prompt Outcomes:

10 Values

1. Embrace Respect & Empathy

- Recognize and appreciate the perspectives and roles of others within the organization.
- Listen attentively and acknowledge the experiences and opinions of colleagues.
- Treat everyone with dignity and respect, regardless of their background or status.
- Uphold principles of equity and justice without showing favoritism or bias.
- Maintain a humble attitude and a willingness to learn, regardless of experience.

1. Learn & Grow All the Time

- Embrace opportunities to learn by taking on new challenges and trying new things.
- Value the expertise and insights of more experienced colleagues.
- Learn from failures without fear of judgment or reprimand.
- Continuously seek out opportunities for personal and professional growth.
- Share knowledge and expertise with colleagues to help them learn and grow.
- Adopt a student mentality and always remain open to learning.

3

Articulation and Content Enrichment

3. Articulation and Content Enrichment

Improving the clarity and depth of strategic communication by refining content and articulating ideas in a compelling manner.

CASE:

After an Analysis workshop with a client. We are framing the outcome in a SWOT matrix. To present the result properly articulated and clustered and get ready for next steps.

Prompt:

Based on the following insights gathered from industry experts in the field of cybersecurity. Articulate these points in SWOT Analysis format.

Strengths:

Easy access to local network of talents
Arabic Speaking
close to young age region

Weaknesses:

No GRC programmes/profiles
No access to large clients/corporates
No Development plans for executive/ employees

Opportunities:

Cyber Attacks are increasing globally
Cybersecurity experts are hard to find,
Lack of awareness among public
Governments are willing to sign agreements to launch initiatives

Threats

Heavy competition in the hiring and ctf departments
Geopolitical issues between countries might make us lose opportunities

3. Articulation and Content Enrichment

Structuring and consolidating data for comprehensive analysis.

Prompt Outcomes:

Strengths:

1. Advanced Threat Detection Technology:

- The organization possesses cutting-edge threat detection technology, giving it a competitive advantage in identifying and mitigating cyber threats.

2. Skilled Cybersecurity Team:

- The cybersecurity team is highly skilled and experienced, with expertise in emerging threats and the latest cybersecurity practices.

3. Robust Incident Response Plan:

- A well-established incident response plan is in place, ensuring a swift and effective response to any cyber attacks or security incidents.

4. Compliance with Industry Standards:

- The organization complies with industry regulations and standards, ensuring a strong foundation for cybersecurity governance.

Weaknesses:

1. Legacy Systems Vulnerabilities:

- Some legacy systems within the organization pose security vulnerabilities, requiring additional resources for updates and modernization.

2. Limited Employee Training:

- There is a gap in employee awareness and training programs, leading to potential security lapses due to human error.

3. Dependency on Third-Party Vendors:

- Reliance on third-party vendors for certain security components introduces a level of risk, especially if those vendors face security challenges.

4. Insufficient Budget for Cybersecurity:

- The organization faces budget constraints, limiting investments in the latest cybersecurity tools and technologies.

3. Articulation and Content Enrichment

Structuring and consolidating data for comprehensive analysis.

Prompt Outcomes:

Opportunities:

1. **Growing Demand for Cybersecurity Solutions:**
 - The increasing awareness of cybersecurity threats presents an opportunity to expand the organization's client base as businesses seek robust security solutions.
2. **Strategic Partnerships:**
 - Collaborating with other organizations and forming strategic partnerships can enhance the range of cybersecurity services offered.
3. **Emerging Technologies Integration:**
 - Embracing emerging technologies such as AI and machine learning provides opportunities to enhance threat intelligence and response capabilities.
4. **Global Cybersecurity Talent Pool:**
 - Access to a global talent pool allows the organization to recruit skilled professionals and diversify its cybersecurity expertise.

Threats:

1. **Rapidly Evolving Cyber Threat Landscape:**
 - The constantly evolving nature of cyber threats poses a significant challenge, requiring continuous adaptation of security measures.
2. **Regulatory Changes:**
 - Changes in cybersecurity regulations may necessitate updates to compliance processes, potentially causing disruptions and additional compliance costs.
3. **Targeted Cyber Attacks:**
 - The organization faces the risk of targeted and sophisticated cyber attacks, which may exploit vulnerabilities and compromise sensitive data.
4. **Competitive Landscape:**
 - Intense competition in the cybersecurity market poses a threat, requiring the organization to differentiate itself and stay ahead in innovation.

4

Verification of Analytical Outcomes

4. Verification of Analytical Outcomes

Ensuring accuracy and reliability of the results created within the various workshops with the client and amend if necessary

CASE:

Upon creating direction cases with clients we have a verification activity to ensure that we are covering all the elements needed.

Prompt:

Client Context - We are looking to expand our services and create a new product line where we can build and sell our own furniture line to individual home owners for their apartments that we don't operate. Think like a strategy consultant and industry expert and build an argument Following the following structure:

1. logic for doing this offering (External)
2. Logic against doing this offering (External)
3. Internal Enablers
4. Internal Limitations
5. What Major prerequisites
6. What are the possible losses if we don't pursue this direction

Verification of Analytical Outcomes

Ensuring accuracy and reliability of the results created within the various workshops with the client and amend if necessary

Prompt Outcomes:

Market need:

Lemonspace already has a large pool of customers who are interested in their unique designs and technology-enabled solutions. By offering a furniture line, they can extend their brand and cater to the needs of these customers who are looking for furniture solutions that align with the unique style of Lemonspace apartments.

Macro dynamics:

The real estate market is constantly evolving, and the trend is moving towards sustainability and affordability. Lemonspace can leverage this trend by offering eco-friendly and affordable furniture solutions that cater to the needs of customers who are environmentally conscious and looking for value for their money.

4. Verification of Analytical Outcomes

Ensuring accuracy and reliability of the results created within the various workshops with the client and amend if necessary

Prompt Outcomes:

1. What Major prerequisites that should happen before doing things move:

Before launching the furniture line, Lemonspaces should consider the following prerequisites:

- Conduct market research to determine the demand for furniture solutions that align with the Lemonspaces brand.
- Identify potential suppliers and manufacturers who can provide affordable and eco-friendly materials for the furniture line.
- Develop a detailed business plan that outlines the financial projections, marketing strategy, and operational plan for the furniture line.
- Identify and mitigate any potential risks associated with launching the furniture line, such as quality control issues and production delays.

Frameworks Refinement

6. Frameworks Refinement

Enhancing and adapting existing frameworks for better customization and improving strategy development.

CASE:

Developing clearer scoring logic for assessing and selecting strategic directions. and

Prompt:

for the listed directions, provide scoring logic to help the team to score each direction based on the following criteria:

1. URGENCY: (Competition pressure, Market demand, Non utilized, non dispensable Resources, Time sensitivity of Opp)
2. IMPORTANCE: (Revenue potential (Mkt Size), Strategic fit and alignment, Long-term Protection, Brand/Customer impact)
3. Ease (Resources & tools availability, People capabilities, Operational complexity, Cultural Readiness, Financial investment, Time to GTM)

6. Frameworks Refinement

Enhancing and adapting existing frameworks for better customization and improving strategy development.

Prompt Outcomes:

ChatGPT

Absolutely, here's the logic behind the scores for each criterion for each strategic direction:

Urgency:

- **Score 5 (Highest Urgency):** Directions that involve addressing immediate and pressing needs with high market demand and competition. These directions require quick action due to the urgency of the situation.
- **Score 4 (High Urgency):** Directions that respond to ongoing market demand and competition. The opportunities are clear, and acting promptly is beneficial.
- **Score 3 (Moderate Urgency):** Directions with existing demand but not as time-sensitive. While the opportunities are valuable, they may not require immediate attention.
- **Score 2 (Low Urgency):** Directions where the opportunities are relevant but not pressing. The market demand and competition might be lower, allowing for more flexibility in timing.
- **Score 1 (Lowest Urgency):** Directions that are not directly driven by immediate market demand or competition. These opportunities can be pursued with a longer-term perspective.

Importance:

- **Score 5 (Highest Importance):** Directions that align strategically with the company's core competencies, values, and long-term goals. These opportunities have significant revenue potential and can shape the company's future.
- **Score 4 (High Importance):** Directions that offer substantial revenue potential and strategic alignment. These opportunities can contribute to the company's growth trajectory and market positioning.
- **Score 3 (Moderate Importance):** Directions that have revenue potential and strategic fit, but might not be as transformative. They contribute positively to the company's goals.
- **Score 2 (Low Importance):** Directions that align with the company's goals but might not have substantial revenue potential or strategic impact. Pursuing them could be beneficial, but they may not be top priorities.
- **Score 1 (Lowest Importance):** Directions that are not closely aligned with the company's core goals or values. While they might have some benefits, they are less critical to the company's overall strategy.

6. Frameworks Refinement

Enhancing and adapting existing frameworks for better customization and improving strategy development.

Prompt Outcomes:

Ease:

- **Score 5 (Highest Ease):** Directions that can be executed with available resources, tools, capabilities, and minimal operational complexity. These opportunities can be pursued with relatively low effort.
- **Score 4 (High Ease):** Directions that require moderate resource allocation and have moderate operational complexity. The company possesses the necessary resources and capabilities to execute them effectively.
- **Score 3 (Moderate Ease):** Directions that require a balanced allocation of resources and effort. There might be some challenges, but they can be addressed with reasonable effort.
- **Score 2 (Low Ease):** Directions that involve significant resource allocation, operational complexity, or financial investment. Overcoming these challenges might require more time and effort.
- **Score 1 (Lowest Ease):** Directions that involve substantial resource allocation, operational complexity, and financial investment. Pursuing these opportunities might be resource-intensive and challenging.

7

Business Cases Creation

7. Business Cases Creation

Developing illustrative cases to showcase strategic principles and applications.

CASE:

Preparing a business case to explain a certain outcome in the context of knowledge sharing & education either for external parties or the team

Prompt:

Write a brief about a company working in the food & beverage sector having multiple retail stores selling desserts and bakery mentioning its history and growth stages it went through and their client segments and locations they exist in Egypt. In addition mention the Geopolitical dynamics in the middle east that impact the food & beverage industry with potential opportunities and risks for the company and explain the market dynamics of the industry in Egypt regarding the competition, suppliers and buyers behavior with the associated opportunities and risks. Moreover, explain in details the current internal strengths and weaknesses of the company.

7. Business Cases Creation

Developing illustrative cases to showcase strategic principles and applications.

Prompt Outcomes:

Sugar Rush is a leading bakery and dessert chain in Egypt. The company was established in 2010 with a single store in Cairo and has since expanded to 15 locations across the country. The brand is known for its high-quality and innovative products, which range from cakes, cookies, and macarons to artisanal ice cream and signature coffee blends.

Over the years, Sugar Rush has attracted a diverse clientele, including families, young adults, and tourists, by offering a unique and memorable experience that combines excellent food, elegant ambiance, and personalized customer service. The company's stores are strategically located in busy shopping malls, tourist hotspots, and affluent neighborhoods, such as Zamalek, Maadi, and New Cairo.

In the context of the Middle East's geopolitical dynamics, the food & beverage industry is influenced by various factors, including economic instability, political uncertainty, and cultural diversity. While these factors pose significant risks to businesses, they also create opportunities for innovative and adaptive companies, such as Sugar Rush, to cater to changing consumer preferences and market demands.

7. Business Cases Creation

Developing illustrative cases to showcase strategic principles and applications.

Prompt Outcomes:

In the Egyptian market, the food & beverage industry is highly competitive, with numerous players, including multinational chains, local brands, and independent shops. The industry's suppliers include farmers, wholesalers, and distributors, while the buyers comprise individual consumers, catering companies, and corporate clients. The market dynamics are affected by various factors, such as pricing, quality, availability, and promotions.

As for Sugar Rush, the company's internal strengths include a strong brand reputation, a loyal customer base, an experienced management team, and a robust supply chain. However, the company also faces some weaknesses, such as limited product diversification, high operational costs, and low digital presence. To overcome these challenges and capitalize on the opportunities, Sugar Rush can consider expanding its product range, optimizing its cost structure, and enhancing its online marketing and sales capabilities.

Regarding its financial status, Sugar Rush has been experiencing steady revenue growth over the past years, with a CAGR of 12% since 2015. The company's revenue in 2021 reached EGP 50 million, with a net profit margin of 10%. The company's profitability can be attributed to its effective cost management, efficient operations, and pricing strategy.

8

Proposal Development

8. Proposal Development

Developing illustrative cases to showcase strategic principles and applications.

CASE:

Creating a brief proposal for a strategy assignment for a client

Prompt:

The purpose of this assignment is to guide the bosta team to create their 2024-2025 strategy in alignment with all the present data within the current market dynamics with Egypt & Saudi Scope of work:

- 1-** Conduct situational analysis including people insights, merchants & drivers and provide a comprehensive report to consolidate the analysis outcomes
- 2-** Guide the squad owners in the creation of the directions plans for the upcoming year including the targets & the initiatives associated with it
- 3-** Guide the management team in a strategy retreat to align on the plans and the indicated initiatives
- 4-** Support in the creation of the company foundation and company wide OKRs and ensure it's cohesiveness
- 5-** Support the data team in the cascade the company wide okrs on the function level and break the targets down across the different departments

Duration: 4 months - September 2023 to December 2023

8. Proposal Development

Developing illustrative cases to showcase strategic principles and applications.

Prompt Outcomes:

Scope of Work:

1. **Situational Analysis:** We will conduct an in-depth situational analysis encompassing key insights into your stakeholders - including people insights, merchants, and drivers. Our team will provide a detailed report consolidating the outcomes of this analysis, offering valuable insights into your current position in the market.
2. **Direction Planning:** We will collaborate with your squad owners to craft direction plans for the upcoming year. These plans will be intricately designed, complete with specific targets and initiatives required for their realization.
3. **Strategy Retreat:** Our experienced consultants will guide your management team in a strategy retreat. This retreat aims to align your leadership on the strategic plans and initiatives outlined in step two. This process ensures a unified and coherent approach to achieving your objectives.
4. **Company Foundation & OKRs:** Building a strong foundation is key. We will aid in the creation of your company-wide OKRs (Objectives and Key Results) to provide a clear strategic framework. This framework will be designed for cohesiveness, ensuring that all departments and teams work in alignment.
5. **OKR Cascade:** To guarantee effective execution, we will support your data team in cascading the company-wide OKRs to a functional level. This involves breaking down targets across various departments, enabling a seamless flow of goals from the organizational level to individual teams.

Payment Terms:

- **Down Payment:** To initiate the project, we request a down payment of 50%.
- **Post Retreat Payment:** Following the successful completion of the strategy retreat and planning phases, a payment of 30% is due.
- **Project Finalization:** The remaining 20% is to be paid upon the finalization of the project.

We are excited about the opportunity to collaborate with Bosta on this strategic journey. By partnering with us, you'll gain access to our wealth of experience and expertise in guiding organizations towards successful strategic outcomes.

Should you have any questions or require further clarification, please don't hesitate to reach out. We look forward to the possibility of helping Bosta achieve its strategic aspirations.

KEY TAKEAWAYS

KEY TAKEAWAYS

- **Context is Key:** Providing context is the key element of utilization the power of AI
- **Prompting is a skill:** We need to work on developing promoting approaches which requires trials & validations
- **Expert Prompting:** A knowledgeable prompter is essential to ensure quality of outcomes
- **Facilitation Capabilities:** We should leverage our capacity to facilitate and build on the outcomes
- **Utilize AI for Efficiency:** Keep AI utilization considered at the Start - Mid - End to keep our efficiency
